

VOTE "YES" ON HB 1681 AND HB 1583

**Communities in North St. Louis County have been exposed to radioactive waste as a result of the Manhattan Project since the 1940s and have seen disproportionately high cases of unusual cancers, autoimmune diseases, birth defects, and other diseases. Now is the time to put a stop to these environmental injustices.**

**HB 1681** (Sponsor: Rep. Applebaum):  
Requires the disclosure of radioactive exposure from hazardous contamination for current tenants and government notice requirements to current residents.  
**Tenant's deserve to be informed of radioactive exposure to protect their health and safety.**

**HB 1583** (Sponsor: Rep. Clemens):  
Requires a notice of intent to excavate to DNR to check whether the excavation is in a site contaminated with hazardous waste. **DNR needs to be aware of excavation sites and remediation efforts taking place to prevent disturbance of contaminated soil and water.**

**Repair the Wrongs from Nuclear Radioactive Waste Exposure. Vote "YES" on HB 1681 and HB 1583.**

**VOTE "NO" ON THE BILLS BELOW**

**Communities in North St. Louis County have been exposed to radioactive waste as a result of the Manhattan Project since the 1940s and have seen disproportionately high cases of unusual cancers, autoimmune diseases, birth defects, and other diseases. Now is the time to put a stop to these environmental injustices.**

The following bills are purposing costly, unnecessary, and risky investments in nuclear energy: HB 1435, HB 1804, HB 2681, HB 2710, HB 2721, SB 1388, SB 1461, SB 908

These bills will shift the liability for potential nuclear energy projects to consumers rather than the company tasked with constructing and receiving the necessary permits for their operation. These bills will incentivize the creation of new nuclear power plants in Missouri and further add to the quandary of what to do with the radioactive waste created by these plants. **Missouri needs investment in safe, reliable renewable energy, not dangerous, expensive nuclear power. Missourians should not be subjected to further radioactive waste exposure.**

**LEARN FROM THE  
MANHATTAN PROJECT:  
NUCLEAR WASTE HARMS  
COMMUNITIES FOR  
DECADES.**

**Prevent Further Risks of Nuclear Waste Exposure.  
Vote "NO"**
